MONDAY EVENING, AUG. 20, 1900.

LOCAL MATTERS.

On river tomorrow at 5:26 a. m. and at 6:49 p. m. High water at 4:26 a. m. and 5:05 p. m.

WEATHER PROBABILITIES.—For this season, threatening weather and probably showery light and Tuesday; light to fresh north-easterly wind.

FIRE.—A fire about 7 o'clock Sunday evening partially destroyed the old works of the Alexandria Fertilizer and Chemical Company, situated on the river front in the northeastern part of the city. It is estimated, to the extent of about \$12,000. The fire department promptly responded to the alarm. The fire was found to be confined to the engine room which is a three-story frame affair, in the northwestern part of the building, and is separated from the acid works by a mammoth brick fire wall, which averages seventeen inches in thickness. It was this wall that saved the building from total destruction. The firemen worked persistently to save the building, and it was not until about an hour had the flames under control. Five powerful streams, directed upon the flames, there were from the Columbia, one from the Hydrant and two from the apparatus owned by the company. The Hydrant engine experienced some little difficulty in getting a stream of water upon the flames. It first took water from the river, but afterward went to a plug. While the fire was burning, a Geo. S. Sander was burned by acid, though not seriously. The fire started in the northeastern corner of the engine-room. As soon as it was discovered, the few men present ran a line of hose from the company's apparatus upon the flames. The hose burst, and the alarm whistle sounded while locomotives in the Washington and Ohio yard were for aid. It was during the arrival, before the department's arrival, that the flames made headway. News seemed to know the real origin of the fire, though it is said to have originated in the cupola, which is situated in the east end of the engine room. In the engine-room is the engine and boilers and other valuable machinery. Directly south of the engine room is the factory proper, a frame one-story structure, about 250 feet in length by 75 feet wide, and 25 feet high, covered by a wooden roof, and with a large number of valuable tanks, and a large quantity of lead used in the manufacture of acids and fertilizers. These remain intact. The engine plant is worth about \$75,000. The building is known as the Alexandria Fertilizer and Chemical Company and is owned and controlled by the American Fertilizer and Chemical Company, of New York, which is in the trust of John P. Robinson is president and George S. French secretary, both of New York. Messrs. Smoot, Fiench & Company were the original owners of the plant and Mr. Andrew Nisbet is the foreman. The damaged building will be repaired immediately. The building is on the river front, and is in close proximity to the city gas works and the Standard Oil Company's plant. Had a high wind been blowing at the time the fire would have been disastrous. The fire attracted a great throng of people, and, as it was visible from all the hills north of Alexandria, many hundreds of ladies who were out enjoying the evening air witnessed the fire from the neighboring hills.

CHARGED WITH THEFT.—John M. Barley, a well-known young man, was arrested yesterday morning on a State warrant, sworn out by his step-grandmother, Mrs. Mary Swain, who resides on Wolfe street, charging the accused with the larceny of a set of furniture, two carpets and one set of dishes valued at \$90. The theft is alleged to have occurred on Friday last. Young Barley lives at Mrs. Swain's house, and it is alleged that the furniture was taken during her absence. It is charged that he stole two stoves and a pair of antique vases from the premises, but these are not mentioned in the warrant. One carpet, which Barley had given a man to dispose of, was recovered by the owner. It is said that he sold the remainder of the goods to a second-hand furniture dealer. On the day of the alleged theft, the accused was married to Miss Lila E. Fiench, of this city. He was arrested at his home, on Queen street. Recently the accused was arrested on complaint of the Cashier-John Company of Washington, he having got into trouble concerning some jewelry. Barley was taken before the Mayor this morning and was sent on to the grand jury. Some of the furniture taken from the house belonged to Mr. Samuel Merchant.

POLICE COURT.—The following cases were disposed of today:

John M. Barley, charged with the larceny of goods from the residence of Mrs. Mary Swain, was sent on to the grand jury.

Edward Julius, colored, charged with assaulting and beating Mary Simms, also colored, was fined \$2.50.

Simon Hunter, colored, charged with assaulting and beating Willie Hunter, also colored, was fined \$5.

Winnie Robinson, colored, charged with assaulting and beating Jennie N. Jones, also colored, was fined \$5.

Maria Lewis, colored, charged with assaulting and beating Ann Russell, also colored, was fined \$5.

Mary Simms, colored, charged with disorderly conduct, was fined \$2.50.

Nettie Quill, colored, charged with disorderly conduct, had her case continued.

Charles Schaefer, charged with assaulting and beating his wife, was fined \$5.

Mary J. Jenkins, colored, charged with being drunk and disorderly conduct, was fined \$5.

Night Report.—Last night was warm and clear until about 3 o'clock, when it began to rain. Four prisoners and one lodger were at the station house.

DRAW STORE ROBBER.—The drug store of Messrs. Warfield & Hall, on the corner of Prince and Fairfax streets, was entered by thieves yesterday morning before daylight. The entrance was made by removing a pane of glass from the window on Fairfax street. About \$12 in money was taken by the thieves, together with some postage stamps.

Mr. Thomas B. Power and family have returned from Round Hill.

Messrs. F. M. Penn and Herbert Rosson will leave tomorrow for Culpeper.

DECEASED.—About eight months ago a man professing to be a lawyer came here with his family from Tennessee and engaged board with a family on Prince street. While here one of his children was taken sick and considerable sympathy was expressed for the little one by a large number of acquaintances the family had made while here. The church bells remained silent during the illness of the child and straw was strewn on the street in front of the house in which it lay. The little one finally entered upon its convalescence and the doctor, apothecaries, barbers, boarding house keeper and others began to present their bills. One by one was stayed off under different pretenses, until the keeper of the boarding-house seized a trunk, supposed to contain a quantity of silverware. The family in the meantime decamped and when the trunk was opened it was found to contain one ragged quilt—only this and nothing more.

BURGLARS ENTERED A BREWING DEPOT.—Sometime last night the depot of the Portner Brewing Company, in Petersburg, was broken into, an entrance being gained through a window on the south side of the building, but nothing of value was carried off. Friday morning when Mr. Wm. Koenig, the manager of the company, went down to his office he found the nine drawers of his desk and their contents scattered about promiscuously on the floor. The burglars, who were evidently after money, left the chisel with which they had opened the drawers in the office. After getting into the office it is supposed that they extinguished an electric light which is always left burning at night and then pulled down the window shade. They went through the pockets of two or three coats belonging to Mr. Koenig which had been left in the office but found nothing they wanted. [Petersburg Index Appeal.]

CAPT. PARSONS EXONERATED.—A report of the inquiry into the management of the quartermaster's depot at St. Asaph has been made by Maj. Knox, of the inspector general's department. The report was ordered by the Secretary of War, and was based upon charges made by two discharged civilian employees against Capt. E. H. Parsons, U. S. V. The charges were that government money and materials had been diverted from their proper channels to the private use of Captain Parsons. The understanding is that Maj. Knox found a number of irregularities in Capt. Parsons' method of conducting business, but nothing reflecting upon the integrity of that officer. It is said that Capt. Parsons will probably be transferred to another station, and that two civilian employees will likely be discharged.

RETURNING.—The summer tourists are beginning to return home and the number will increase as the end of the season approaches. Some went to the seaside and some to the mountain resorts, while others sought that seclusion which the country grants. Most of them have a tired feeling; some look a little bedraggled; many are sunburned and all have flat pocketbooks. Some say they had a good time and others that they would have been more comfortable at home, but all who can do so will take an outing again next year.

THE WEATHER yesterday was not as sultry as that of last Sunday, there being less humidity in the atmosphere, although the mercury in the thermometer again reached 93°. Late in the evening a refreshing breeze from the southeast prevailed. Between three and four o'clock this morning there were some fine showers, accompanied by thunder and lightning.

Messrs. M. B. Harlow & Company, real estate agents, have sold for the heirs of the late John Laphen the brick store and dwelling at No. 124 north Royal street to Mrs. Louisa M. Pullin. The consideration named in the deed is nominal.

FATAL ACCIDENT.—Miss Taverner, a maid-sister of Mr. David Taverner, of Philomont, Loudoun county, was thrown from a buggy on Thursday last and so seriously injured that she died a short time afterward. Miss Taverner had started for the Loudoun camp meeting in company with Mr. Turner Dillon, and while on the way the horse took fright and ran off. Miss Taverner's skull was fractured by her fall from the buggy. Mr. Dillon was unhurt.

WORK OF A VANDAL.—The balustrade on the democratic flag pole on Windmill Hill were cut last night and rendered useless. There is no crew to the perpetrators of the outrage. Those who are proud of the pole and its names will soon hear are worth and should be guilty ones be positively identified they might be visited by a white cap party and treated to a coat of tar and feathers.
